**For more than 40 years, the Stanton Community Center has provided free, high quality educational, recreational and after-school enrichment programs to low-income youth and their families in the historic Clay Street Community and the City of Annapolis.**

**Low-income youth and families are in crisis. The social, educational and economic challenges are overwhelming. Numerous studies have shown that youth living in poverty are more likely to struggle in school and encounter trouble with the legal system when they do not have access to after-school and summer programming.**
